

Anti-Counterfeit and Fraudulent Products Policy

Talisman Plastics is aware of the detrimental effects of counterfeit or fraudulent products can have on our customers, end-users and on Talisman Plastics. Talisman Plastics is determined to protect ourselves and our customers from the potential risks of reduced performance, reliability and safety hazards counterfeit and fraudulent parts can cause.

Our customers that purchase products from Talisman Plastics can be confident that raw materials will only be purchased from Manufacture or an approved Supplier by;

- 1) Talisman does not knowingly do business with individuals or corporate entities that have been found to be involved with counterfeit or fraudulent components.
- 2) Maintaining our ISO 9001 Quality Management System. This includes historical product traceability records and procedures for scrapping and destruction of substandard or non-conforming products.
- 3) Talisman uses only raw material from original Manufactures or authorized Distributors.
- 4) Talisman will examine any suspect components purported to originate from Talisman and report to authorities any counterfeit or fraudulent components that are detected.
